James Vincent Calunsag

AI-Driven Computer Engineer · Full-Stack Development & Design

jamescalunsag13@gmail.com | Dapitan City, PH | github.com/tengkyuuu | linkedin.com/in/james-vincent-calunsag

SUMMARY

I'm James, a computer engineer focused on full-stack development and design. I use AI throughout my workflow—from defining requirements and planning the system to implementing, testing, and refining the experience.

I'm currently building my own orchestrator software and learning multi-agent programming.

SKILLS

Frontend: React, TypeScript, Tailwind CSS, Flutter, HTML / CSS / JS, Responsive Design, Web APIs, Three.js

Design: Figma, Canva, Google Stitch, Adobe Photoshop, Illustrator, UI / UX, Framer

Tools & Backend: Python, C / C++, Git, Firebase, SQL, Node.js, Linux, VS Code

AI & Data: Claude, ChatGPT, Jupyter

SELECTED PROJECTS

Stormfresh — Poultry ERP

Technologies: Next.js (App Router), React, Supabase Postgres (RLS), Supabase Auth, Tailwind CSS, Zustand, Recharts / Chart.js, Vitest

One of four engineers. I owned the management dashboard, reporting layer, Postgres role rules, and the app's interface language.

Flux

Technologies: Next.js (App Router), TypeScript, Tailwind CSS, React Native (Expo Router), Vitest + Testing Library, Google Sheets API, Three.js

I implemented contrast checks for the brand palette, fixture-driven prelaunch screens, and the companion app's navigation system.

Rallys Transfers

Technologies: Next.js App Router (React, TypeScript, Tailwind), Flutter with Riverpod and go_router (passenger, driver, crew apps), Firebase Cloud Functions (Node 22, TypeScript), Cloud Firestore with custom security rules and admin claims, Stripe (flutter_stripe, @stripe/react-stripe-js), Twilio (SMS and voice) and Google Maps / Places, Anthropic SDK for AI email generation, Playwright, Vitest and Firebase emulator tests

Built the admin web portal's UI and its CRM feature, as one of several owners on a team project spanning the admin web, the Flutter apps and the Cloud Functions backend.

EDUCATION & EXPERIENCE

BS Computer Engineering

Jose Rizal Memorial State University | 2022 — 2026

Lead software engineer on our IoT-based thesis, and Vice President for External Affairs of ICpEP.SE.

SaaS Frontend Developer & Designer

Self-employed | Freelance

Build and design responsive SaaS web frontends for clients — UI/UX, design systems, and production React.

IT Support

Sangguniang Panlungsod — City Government Center of Dapitan | Internship

Hardware and software troubleshooting, plus graphics design for the city council.

Undergraduate Research — IoT Systems

JRMSU · Multi-disciplinary Research | College

Developed IoT-based theses contributing to multi-disciplinary undergraduate research.

CERTIFICATIONS

- **Google Cloud Gen AI Academy APAC 2026 — Cohort 3** - Google Cloud · Hack2skill (2026)
- **Champion — Regional Programming Competition (C++)** - ICpEP.SE (2023)
- **Service Award — VP for External Affairs** - ICpEP.SE (1 year)
- **AI Fundamentals** - IBM SkillsBuild (2024)
- **Establishing & Operating Micro, Small & Medium Enterprises** - TESDA (2025)
- **9x Course Certificates** - Sololearn (Python, C, C++, Java, Intro to Java, SQL, SQL Intermediate, HTML, Machine Learning)
